

August 30, 2022:

Two Counter-High Metal Storage Cabinets, with locking doors, received, today, August 30, 2022, from ULine. \$410 each. Two more identical cabinets are being shipped from California and will be here next week.

These cabinets are beautiful and represent a major step forward in the process of getting under control the huge amount of donations and un-filed material here. They are heavy-duty and lockable, which is ideal for our purposes. One of these cabinets I will use for my personal papers/artifacts at City Hall—this cabinet will be moved to the Russell Homestead following my death.
